

Core::IManager

```
classDiagram
    class CoreIManager["Core::IManager"]
    class CoreCommunicationManager["Core::CommunicationManager"]
    CoreCommunicationManager --|> CoreIManager
```

The diagram shows a class hierarchy. At the top is the 'Core::IManager' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. A blue arrow with a hollow triangular head points from the 'Core::CommunicationManager' class below to the 'Core::IManager' class. The 'Core::CommunicationManager' class is represented by a rectangle with a dark grey header containing the class name, a dark grey separator, and a light grey body containing a list of public methods, each preceded by a '+' sign.

Core::CommunicationManager

- + CommunicationManager()
- + ~CommunicationManager()
- + CommunicationManager()
- + operator=()
- + begin()
- + taskLoop()
- + getState()
- + wifiEventHandler()
